Special Instructions _____

Date Rabies given _____ Date of expiration _____

Date Distemper/DHLP-CPV given _____ Date of expiration _____

Date Bordetella given _____ Date of expiration _____

Bordetella (a vaccine for strains of an upper respiratory infection commonly known as “Kennel Cough”) is given annually by most veterinarians, however, we highly recommend you request it be given every 6 months when exposing your pet to others, as in the case of day care and boarding.

A copy of current vaccination records must be provided for each pet prior to admission to our facility. We require DHLPP-CPV, current Rabies and Bordetella (recommended every 6 months).
